

**Access to
Baby & Child
Dentistry™**

Access to Baby and Child Dentistry

(ABCD) is a system of care in Washington that connects Apple Health (Medicaid) insured children either (1) under age 6 or (2) under age 13 with a DDA indicator with specially trained dentists in their communities.

How ABCD Supports Your Practice and Community

Dentists participating in the ABCD program are trained and certified to care for young children.

- **Certified dentists receive enhanced fees** for certain procedures and support to participate in and bill Apple Health.
- ABCD families receive coaching about the importance of accessing early preventive dental care and learn how to care for their children’s oral health at home.
- Families who need extra help making and keeping dental appointments receive assistance from local ABCD program staff.

Receive Enhanced Fees with the ABCD Program

ABCD certifications are free, and CDE trainings are just a few hours in length.

Your local ABCD coordinator will connect with you with your county’s ABCD champion, a fellow dental provider calibrated by the University of Washington School of Dentistry to deliver training and provide guidance and support.

Once training is complete, providers are eligible to receive enhanced fees, including:

Procedure	With ABCD	Without ABCD
Periodic oral evaluation	\$41.24	\$32.41
Comprehensive oral evaluation	\$56.53	\$44.42
Topical application of fluoride varnish	\$32.77	\$25.75
Family Oral Health Education	\$38.61	N/A

See back for complete sample fee schedule.

Receive free ABCD training and CDE. Contact your local ABCD Program.
