Acknowledgements

The authors would like to thank the members of the WRIA 31 Planning Unit for their participation in this Level 1 watershed assessment, including providing valuable information for the assessment and thoughtful review comments on the draft report. We wish to recognize Dave McClure (Klickitat County) and Greg Schuler (Washington State Department of Ecology) for overall project coordination, Adam Fyall (Benton County) for meeting facilitation, and Jack Clark (City of Kennewick) for his input regarding existing and planned water supply conditions in Kennewick and his contributions throughout the assessment. The authors would like to thank Roscoe Imrie, Jim Beeks, and Graig Schuster for providing access to their land and serving as guides in the June 2004 reconnaissance survey of Rock Creek and Chapman Creek. We would like to thank Jim Wright for arranging access to the company road in the Wood Gulch drainage. Thanks also to Richard Evans (Kennewick Irrigation District), Larry Fox (Columbia Irrigation District), Scott Andrews (Andrews Farms), Russ Rasmussen (Mercer Ranch), Jim Hill and Greg Fahlenkamp (East Klickitat Conservation District), Treg Owings (NRCS), and John Kirk, Anna Hoselton, and Ron Dixon (Ecology Central Regional Office) for meeting with the authors during the June 2004 reconnaissance of WRIA 31. The collective input provided valuable insight into basin conditions, water supply, land use management, and history. We would also like to thank other residents for providing information that was useful to this report.

Photographs on the report cover are Rock Creek at the Chamberlain-Goodnoe bridge; a center pivot irrigation system within the Glade\Fourmile subbasin; and a panorama of the City of Kennewick and Columbia River, obtained from the City of Kennewick website (www.ci.kennewick.wa.us).
