

1. ENVIRONMENT

Bickleton
4-17-25

● Develop non polluting industries like hemp for food, fuel and fiber

● Jun 17
● High Fire Danger w/ CRP etc. - Need coordinated fire break systems on N-S roads

● GALL Wonder if our beauty is forever compromised due to Solar and Turbines and Elec. goes somewhere else.

● Eastern Kirkitat County - Needs help with weed control
● All resources go to West side of county.

● Grow Hemp for a clean agricultural crop
● Hemp for paper not trees

2 NATURAL RESOURCES

Wildfire prevention

Ditto We do not need wolves, Antelope were introduced on the Reservation & they came here. We do not need them. For some reason Elk are here like never before. we do not need them

No expansion of tribal fishing, hunting, etc rights

Continue to maintain forestry & weed control

●● Grow Hemp for food, fuel, fiber

↑ Carpe hunting rights they endangered our live stock

● Ditto To Nuber 1 for elk.

3. ECONOMY

Bickleton 4-17-25

- Utilize public land for offroad vehicle permits &

- Possible camping - i.e. County permits

↑ Not during fire season

Encourage Hemp farming equals 1000 g/acre ●

- Need reliable internet to allow "remote work"

 - ↳ Bring residents to E. Klick

 - ↳ Need housing that doesn't eat up big acres

Bickleton is a "hot spot" for our bluebirds. Bird Societies come from all over to see & photo our population of blue birds. We need to have advertisements of our bluebirds. We have one of the oldest running homesteads in the country. Another hot spot for advertisements. The travel for motorcycles / car clubs / bicycles is huge up here.

- Better roads will bring more visitors, economic growth, etc and maintained.

- General Tourism promotion of our area

Bluebirds, Good Drive, Bluebird Helps our businesses
(if the roads can be maintained better)

4. HOUSING

Bickleton
4-17-25

●●● Better road system

●● Community Park for families & Kids

● Large differences between Recreational Land Value and Dry land farm land Value.

● D/T Solar | Turbines, we have a lot of contractors #'s that look for a place to stay as they work. Need RV park or land opportunities

●● Minimum lot sizes - urban sprawl

●●●● Maintain Farm & Ranch Community ●●●●

● Build with Hemp

●●● Make it easier for landowners to short plat their land
+ quicker

● PROMOTE SMALLER HOUSING LOTS (1-3 ac) IN CLUSTERS RATHER THAN 80 ac/HOUSE

5. TRANSPORTATION

Fred Wilkins

The Region EAST of Rock Creek has the worst roads of anywhere we have been. It's Time for The K.C. Commissioners to do their job. The Public Works Director is under the guidance and control of the F.C.C. and they are NOT providing any and I mean any help for this person. Come up and I will take you for a ride.

Jensen-

Roads need to be improved for Fire Dept. & EMS + LEO

Kingsbury

Middle road needs significant improvement for bus route

GALL

There is no transportation for Sr. Citizens this direction of county from Rock Creek Used too. - but not now

Jensen-

Roads need improvement, especially gravel roads being utilized by turbine workers and solar. Fire + EMS are substantially slowed due to the conditions of roads, making response times even slower. Please look at Middle Road!

Roads used by school buses MUST be paved!!!

We have an aging population that does & have services to support their needs.

Roads need more attention. We are mapped for our scenic sights that draws multi. motorcycle + motor clubs from all over the state. Our roads are safe! This brings \$ to our community for the Bluebird + cafe.

Use Hemp oil for fuel

All roads on the East side

6. PUBLIC SERVICES

Bickleton
4-17-25

Fred Wilkins

I think the public services for area east of Rock Creek are very good room for improvement maybe. I like the open space of this area. Adding more services adds more people. I > This

When we have fires in Bickleton area and outside firefighters come & our firefighters are laid off, the outside fighters just sit alone side the roads & DO NOT FIGHT FIRE. We in this area know the two track roads, ask us, make maps of all the two track roads & hand them out.

Health: The 2 hosp. in our county do & have OB services. Our county has to be delivered to out of state OR, or to outside counties. We have very limited non health services avail. to our residents. Bickleton, has ↓ # of students that are within our county. We are known to be a "hot spot" for bird watching & our motorcycle clubs our roads do & meet safety standards.

CALL There are NO senior services this side of Rock Creek. We used to have SR. dinners - senior Bus. Nothing now.

more police presence 45m+ response time

Increase Law Enforcement staff

A community park in town for kids and families

Economically affordable broadband internet for the general public and rural families needing online school access.

Better Rural Home Health Care. We (Bickleton) are in a Care Desert. No in home general care service for the ^{East} Clatsop County beyond Hospice services.

DIY More Cellular Towers & *
we have NONE NOW

Century Link will NOT come out & fix our phones landlines - yes

lines burned to ground from Big Horn fire

↑ \$ for safety 2 roads

We need senior services in our area!

7 GOVERNMENT ^{Bickleton} 4-17-25

• East-side representative!!!!

• Possible in-person voting - Proof of ID ** DITTO
≡

Regular updates of meetings

• Those who don't own property can't impose rules/laws on those who do

• Updates to County Website to easier way to i.p. department and current meeting agendas, minutes, and public information

• Formation of our US govt had this "same problem" the very populated states vs not as populated - from this the great compromise was the 2 "houses" of Congress. Need something similar so East Side doesn't get "overlooked"

• CALL Perhaps a commissioner should be from this side of Rock Creek. Think it used to be.

• Each districts votes for their own commissioner; another district can't vote for a commissioner not representing their district.

• Fred Wilkins
Let's not wait 46 years to update our comp plan?

8.

Bickleton
4-17-25

••• Preservation of land owners' rights!!

••• **GALL** Think about giving Senior services
to this end of the county We have NONE

••• We need fire breaks, weed suppression along roads and
help eliminating fuel for wildfires + fire in our county!!! K. Van der Graaf

••• Hire outside or private contractors for fire preservation.

• Missing input from younger generation of Producers
↳ April is crunch time for Farms!
